

Loveland Health Care is part of the Health Care Management Group™

Take a tour.

Love is in more than just the name of our community. It's in every detail. You'll see it in how our living spaces are carefully designed and appointed for comfort and functionality. You'll feel it from the caregivers who view your well-being as a calling, not a job. You'll even notice it in the physical qualities of our center, in how our methodologies and equipment are painstakingly selected for the benefits they bring to you. We see loving care as our duty as professionals and as people serving others who really could use some.

NURSING & REHABILITATION

Greater Care for Greater Cincinnati

94% Patient Satisfaction is more than a statistic—it's our mission.

At Loveland, we believe there is always a better way of doing things, and we have a lot of experienced minds focused on finding them. How can we make your time here more comfortable? Is there new equipment to make your rehabilitation easier? Can our techniques be more effective? What can we do to get you on your feet and confident again faster?

What you'll see when you walk through our Loveland center is a happily humming community that has the best answers to those questions currently available. The room where you'll stay is most likely private and—in the words of some of our past guests—“downright cozy.” There's Wi-Fi access, in-room dining, a coffee shop, daily paper, beauty salon and other services to keep you attended and engaged. For our rehab patients, we also have an exclusive dining area for meals and re-learning household skills.

Our nurses and therapists are all chosen for their experience, skills and abilities to earn your trust. Our staff-to-patient ratio is high and in your favor. In most cases, the caregiver you start with will guide you through your entire journey. We offer cardiac, orthopedic, speech, occupational and physical therapies, wound treatment and complex medical care for acute and chronic cases, as well as memory care with a specialization in Alzheimer's care.

Our techniques are progressive. Our equipment is the latest of its kind and represents the progressive designs of Advanced Care Plus. And our attitude is friendly, helpful and unwaveringly confident that your experience at Loveland will be happily beyond expectations.

Medicaid and Medicare Certified

- 24-Hour admissions / 7 days per week.
- Hospital or home assessment prior to admission is available.
